

We are a **leading producer of coating** resins headquartered in Columbus, Ohio, with a long history in the **paint and coatings market**.

Full-Service Terminal

As a full-service terminal, we offer a 24 rail car siding. OPC has the capability to handle various liquid materials (resin, solvent, monomers, etc.) directly from railcars or tank wagons. Our terminal also provides tank wagon steaming for convenient off-loading at your final destination.

OUR SERVICES INCLUDE:

Transloading from railcar to tank wagons, totes, and drums

Tank wagon steaming

Transload from tank wagon to drums or totes

Warehousing for drums and dry goods

Rail car storage for convenient and timely deliveries

DOT-certified tank wagon scale

Transloading & Repackaging

OPC Polymers boasts significant rail car siding capabilities, allowing us to repackage bulk materials from rail to tank wagons and drums.

Let's Work Together
